Manufacturer Provided Description

The Sealine F44 Flybridge motor yacht has a traditional aft cockpit layout and offers four- to six-berth accommodation with forward and midcabins, plus a saloon. Recognizing the social side of cruising, the F44 combines both a functional and friendly layout. The extended flybridge includes a commanding helm position, two seating areas, plus an extendable sunbed and a sliding hatch to the cockpit. Molded stairs lead down to the cockpit which has U-shaped seating and access to the enormous storage lazarette. The full-width bathing platform has a swim ladder, a shower, and dedicated fender storage. The accommodation layout comprises a forward double cabin, and a double or twin midcabin, both with en suite toilet and shower. The saloon has all-round seating and a large adjustable dining table, as well as provision for an entertainment center and an additional fridge. The galley provides a hob, oven / grill, large fridge, twin sinks and room for a microwave. As with all Sealine motor yachts, there are carefully chosen fabric schemes including leather and Prima Suede choices to complement the internal woodwork. The deck layout is designed for safety and ease of use when moored or underway. Stainless steel windows and portholes enhance her quality appearance.
