Description

2021 BOSTON WHALER 190 MONTAUK

This highly desirable 2021 Boston Whaler 190 Montauk is now available for sale exclusively through Blue Lagoon Marine. She presents as a rare opportunity for the new buyer, being the only example of this kind in the whole of Europe which is immediately available.

This specific example benefits from a whole host of upgrades over and above the standard specification, making a great overall fully loaded package for someone who appreciates the infamous Boston Whaler 'Unsinkable Legend' brand.

It is clear to see immediately that this is no ordinary Boston, starting with its unique 'Light Grey' hull colour which is subtle but stylish nonetheless. At the aft we find the upgraded rear flip bench seat (with storage beneath) which you wouldn't usually find on a 190 Montauk. Moving forward is where the reversible double helm seat is located which, again also acts as a great storage space beneath for lines/fenders.

The helm station includes a significant 12" Raymarine Axiom 12 Multifunction display for all of your navigation and fishfinding requirements as well as a Fusion stereo system which feeds in to the JL audio speakers which produce a phenomenal sound. To ensure a smooth ride no matter the conditions, this 190 Montauk has the benefit of Lenco trim tabs which are also controllable from the helm. An additional switch has also been installed to control the Lumishore underwater lights via a variety of settings.

At the bow there is an extensive seating area made possible by the inclusion of a bow cushion and optional bow table, as well as the cooler box with seat and back rest which comes as part of the upgraded Fishing Package (also includes console mounted rod holders & tackle drawers).

This Montauk 190 is powered by the upgraded Mercury 150HP FourStroke petrol outboard and has less than 65 hours use.

For more information on this truly brilliant Boston Whaler 190 Montauk, please contact the team at Blue Lagoon Marine.
