Manufacturer Provided Description

The Cap Camarat 6.5 CC: Fast, stable, versatile

This seventh generation of the Cap Camarat line results from Jeanneau's incomparable experience in the field of Center Console design.

Without making a dramatic departure from the style of the preceding generation, the Cap Camarat 6.5 CC features an all-new design and integrates innovations that will, once more, position it amongst the best. The sculpted console reinforces the overall style, recalling the superb Cap Camarat 8.5 CC, with a more pronounced and harmonious hull design.
