Description

2004 Beneteau Antares 9.80

Blue Lagoon Marine are delighted to present this stunning 2004 Beneteau Antares 9.80 ' Stargazer' to market. Stargazer is powered by twin Nanni diesel engines on shaft drives providing a platform as a safe and capable cruiser for all excursions.

Stargazer features a spacious aft cockpit which is perfect for days out fishing/socialising. Generous sidewalks provide access up to the bow which is supported by stainless steel guard rails. Steps at the aft also provide easy access up to the flybridge offering an alternative position to command the vessel.

Stepping into the saloon via the sliding doors there is a spacious seating area for dining/socialising. Ahead, there is a cleverly designed galley area featuring a freshwater sink and gas hob.

Heading down the steps is where both the master cabin (bow) and guest cabin (starboard) are found which are both 2 berth. A day heads is also located conveniently to port providing easy access from both cabins as well as the cockpit/

Stargazer also benefits from recently being lifted out of the water for a full hull polish, enhancing the striking blue colour.

For more information, please contact the team at Blue Lagoon Marine today.

Manufacturer Provided Description

Designed with the same type of hull as the Antares 13.80, the Antares 9.80 is an all rounder too. Speed, stability, range, comfort and seaworthiness make her the perfect tool for cruising or deep sea fishing. Available in twin motorisation only (Nanni or Volvo), the 9.80 fully benefits from the tunnel technology for a better efficiency of her propellers, and increased range. She also features an exclusive transom that allows to enlarge the cockpit or the aft platform areas in the twinkling of an eye... Another Beneteau patented innovation.

Additional Description

- 2 x Nanni 4.390TDI inboard diesel engines
- Producing 200hp each
- Shaft drive
- Hour gauges not functional
